DE EU Blue Card Eligible · Available Immediately (visa ~2 months from offer) Berlin / Munich / Remote EU

PROFILE

Software Engineer with 2+ years of production experience delivering full-stack web platforms, XR (AR/VR) systems, and AI-integrated applications. Shipped solutions serve 500+ daily users at 99.9% uptime; led 7 Agile/Scrum projects with a 43% institutional deployment rate. Strong academic foundation across the full stack from systems-level C and .NET to Spring Boot, Unity, and AI algorithms (MCTS). Routinely leverages GitHub Copilot, Cursor, and prompt engineering to accelerate sprint velocity by 20–30%.

EXPERIENCE

Software Engineer & Technical Instructor

Dec 2023 – Present

ESPRIT — Higher School of Engineering & Technology · Tunis, Tunisia

- Architected full-stack web applications (React, Angular, Node.js, MongoDB) serving 500+ daily users, cutting administrative processing time by 40% and sustaining 99.9% uptime.
- Delivered a production ARCore indoor navigation system (Unity) across 5 campus buildings - adopted by 1,000+ users as primary wayfinding tool, reducing navigation time by 50%.
- Built mixed-reality medical training simulations (Unity, MRTK) improving learner retention by 25% in pilots — shortlisted for full institutional rollout.
- Coached 100+ students across Agile/Scrum projects; achieved 72% institutional deployment rate (5/7) - 2× the department benchmark.
- Reduced release cycle lead time ~30% by introducing GitHub Actions CI/CD pipelines and Docker containerization across 3 live services.

Software Engineer Intern (Full-Time)

Jul 2023 – Sep 2023

CONTYFIND · Tunis, Tunisia

- Improved maritime data platform API P95 latency by 25% (800ms → 600ms) through MongoDB query optimization and Angular frontend caching in a regulated multi-tenant environment.
- Implemented JWT authentication and RBAC for a maritime data platform operating under strict compliance requirements.

Software Engineer Intern (Full-Time)

Aug 2022 – Oct 2022

E-Surveys · Tunis, Tunisia

- Developed a responsive maritime survey management system (Angular, Ionic, Node.js) within a cross-functional Agile team - delivered on schedule with key scalability improvements.

SELECTED PROJECTS

Metaxpo - Immersive 3D Virtual Events Platform · React, TypeScript, Unity, Node.js, MongoDB

- Real-time 3D virtual event platform; optimized backend API response time by 35% under concurrent load through query batching and caching layers.

TRICO - AI Virtual Assistant (LLM-Powered) Flutter, Node.js, Google Gemini API

- Production LLM-powered assistant with NLP pipelines and voice interaction — improved response accuracy 18% over baseline through fine-tuned prompt engineering and context management.

EDUCATION

Engineering Degree (Master's Equivalent) - Computer Science

Sep 2021 – Jul 2024

ESPRIT - Higher School of Engineering & Technology · Tunisia

- Specialization: Software Systems & Extended Reality · Graduated with Honors · Ranked top of class twice

Bachelor's Degree - Electrical Engineering

Sep 2017 – Jul 2020

ISET Bizerte · Tunisia

- Specialization: Industrial Automation & Information Technology

TECHNICAL SKILLS

Languages	TypeScript, JavaScript, Java, Python, C#, C, SQL
Frontend	React, Angular, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, WebGL
Backend	Node.js, Express.js, Spring Boot, .NET, REST APIs, GraphQL, Microservices
Databases	MongoDB, PostgreSQL, MySQL, SQL Server, Firebase
XR / 3D	Unity (3+ yrs), ARCore, MRTK, WebXR, Spatial Computing, Physics Simulation
Cloud & DevOps	Docker, GitHub Actions (CI/CD), AWS, Azure, Linux, cloud-native architecture
AI & Algorithms	MCTS, LLM API integration (Gemini, Oracle AI), Prompt Engineering, GitHub Copilot, Cursor
Testing	Jest, Cypress, TDD, unit & integration testing
Methodologies	Agile/Scrum, Kanban, OOP, SOLID, Design Patterns

LANGUAGES & CERTIFICATIONS

English C1 Advanced (EF SET)

French Professional proficiency

Arabic Native

German A2 (active study, targeting B2 Q4 2026)

- Oracle Fusion AI Agent Studio Foundations — 2025
- Cisco Data Analytics Essentials — 2025
- EF SET English Certificate C1 — 2025
